## **Volume Fraction of the Human Pathologic Ossicles Destructed by Cholesteatoma Using Micro-CT**

Keehyun Park, MD, Sung-Kyun Moon, MD, Min Jung Cho, MD, Jinseok Lee, MD and Yong Ro Yoon, MD

Department of Otolaryngology, Ajou University School of Medicine, Suwon, Korea

Korean Journal of Otolaryngology-Head and Neck Surgery 2004;47(5):413-8.

The following original article from Korean Journal of Otolaryngology-Head and Neck Surgery, "Volume Fraction of the Human Pathologic Ossicles Destructed by Cholesteatoma Using Micro-CT" by Keehyun Park, published on May 2004 has been withdrawn from publication by agreement among the authors, the journal Editor, Sung Won Chae, and the publisher ML communications Co., Ltd. The retraction has been agreed due to substantial overlap of the content of this article with previously published one. The author and the Journal apologize to readers.

Sung Won Chae, MD, PhD
